

STATS MEDIC

Asynchronous:
June 13 – July 22
Synchronous:
August 8 – 12

SUMMER TRAINING 2022

- Are you interested in knowing the best ways to implement the Experience First, Formalize Later (EFFL) lessons in your classroom?
- Are you wanting to build your confidence in understanding the content for AP Statistics?
- Do you want to increase your awareness of AP Exam questions and rubrics?

Skip the APSI and go to the APSO instead!!!

OPTION #1: AP Statistics Online (APSO) Course - Asynchronous

In this work-at-your-own-pace 6-week online course, you will work through every Stats Medic lesson, along with getting some expert guidance on the details of the AP Exam. This course is mandatory if you are preparing for your first-year teaching AP Stats, but is also valuable for any veteran teacher who is ready to go all-in with the Stats Medic lessons. All teachers who take this course will have free access to the Stats Medic video library for one full year (a \$348 value).

June 13 – July 22 / \$499

OPTION #2: AP Statistics Online (APSO) Workshop - Synchronous

In this 5-day online workshop, there will be a blend of synchronous work with Luke or Lindsey and asynchronous work on your own. We will explore the Experience First, Formalize Later (EFFL) philosophy by modeling instruction for many of the Stats Medic lessons. You will also get insider information about grading student work using AP Exam rubrics.

August 8 – 12 (Luke) / \$599
